

## GREEN ZONE METAL RECYCLING – FIELD APPRENTICE

Apply online at <https://green-zone-recycling.com/joinourteam/>

As a Field Apprentice at Green Zone Metal Recycling you will be an integral and valued member of our team. You have basic experience with heavy equipment and are interested in growing your equipment operator skillset as well as your mechanic skillset. This role could be full or part time. We hire based on experience, character, and work ethic.

Your core responsibilities will be:

1. Operating our excavators to load material at Green Zone
  - a. Proper loading procedures and loading material in our trailers efficiently
  - b. Ensuring our scrap pile is organized – moving material out of the roadway daily
  - c. Partnering with our mechanic to ensuring excavators are properly maintained – flagging preventative maintenance issues
  
2. Assisting our Maintenance Manager with tires and other light maintenance items
  - a. Learning how to use our Maintenance Software on your phone – uploading photos, completing work orders, creating work orders
  
3. Operating our forklifts to load and unload material at Green Zone
  - a. Unloading customers
  - b. Moving BINs/pallets of material around our yard
  - c. Loading our dry van trailer 1-2x/month for transport
